

Monthly report as of 31 January 2024

Unit price increased by 0.6% in January

- New direct private equity investment in Pest Control Partnership
- New secondary investment in Project Matterhorn

In January, the unit price of Partners Group Global Value Fund increased by 0.6%. The positive contribution from Healthcare and Consumer Discretionary sectors, which witnessed earnings and multiples growth, was offset by Industrials and Information technology, which saw a slight contraction in multiples. One of the best performers in January was PremiStar, a provider of aftermarket maintenance, repair and replacement services for commercial heating, ventilation, and air conditioning equipment (HVAC). Its valuation increased on the back of strong financial performance. The company delivered growth in revenue and EBITDA over the last twelve months, driven by robust customer demand and contributions from recent acquisitions.

On the investment side, the Fund invested in Pest Control Partnership, a proprietary buy-and-build platform for European and UK pest control businesses, an area that Partners Group is attracted to given long-term tailwinds driving market growth. Beyond identifying further add-on acquisitions for Pest Control Partnership, the value creation strategy centers on integration efforts alongside operational efficiency enhancements, for example via technology deployment and automation.

Furthermore, the Fund invested in Project Matterhorn, a proprietary acquisition of LP interests in three growth and venture capital funds. The underlying assets are diversified across geographies, technology sub-sectors, and vintages, with Partners Group having 100% overlap with the portfolio, allowing for deep insight into the assets. The portfolio was secured at a discount of more than 25% to reference NAV.

Partners Group Global Value Fund is an Australian unit trust with the objective of achieving capital growth over the medium- and long-term by investing in private equity.
