

PARTNERS GROUP NEXT GENERATION INFRASTRUCTURE FUND

Monthly report as of 30 April 2026

Performance in April was 0.8%

- Annualized performance since inception at +17.0%
- Esentia (direct investment) and Project Weir (secondary investment) among top value drivers
- Signed new direct co-investment in a North American aviation services business

Partners Group Evergreen SICAV – Partners Group Next Generation Infrastructure (“the Fund”) generated a positive return of +0.8% in April, bringing annualized performance since inception to 17.0%.

Among the top value drivers was Esentia, the largest interconnected private natural gas system in Mexico, reflecting its share price performance over the month. Recently, the company announced its financial results for the first quarter of 2026, reporting steady operational performance with growth in both adjusted revenue and adjusted EBITDA, driven by continued progress on its expansion plan which included the final investment decision for Phase II of the expansion. Project Weir, a secondary portfolio consisting of power generation, energy efficiency, grid equipment and energy technology assets in North America, also contributed to performance.

The Fund recently completed a direct co-investment in a North American aviation services business. The company operates a broad network of on-airport service locations that support private and general aviation customers through fuel, aircraft storage, and other related offerings. Its portfolio benefits from a diversified footprint, operationally strategic sites, durable contractual arrangements, recurring service-driven revenue, and strong cash flow characteristics. Future value creation is expected to center on operational improvements, selective network growth, and disciplined platform expansion.

This Fund might restrict outflows in the future.

We would like to remind investors that redeeming their units in the Fund is subject to restrictions as set out in the Fund's Product Disclosure Statement, including gating restrictions. Investment Holding Vehicles may apply liquidity restrictions - where this occurs, it is likely that the Responsible Entity will not accept withdrawal requests and accordingly limit the ability of investors to withdraw from the Fund.

PARTNERS GROUP NEXT GENERATION INFRASTRUCTURE FUND

Monthly report as of 30 April 2026

Partners Group Next Generation Infrastructure Fund is an Australian unit trust with the objective of achieving capital growth over the medium and long-term by investing in a broadly diversified portfolio of primarily private infrastructure investments. The Fund will provide investors with a broad diversification across geographies, financing stages and investment types, while using Partners Group's relative value investment approach to systematically overweight those segments and investment types that offer attractive value at a given point in time, in order to significantly enhance risk adjusted returns. The Fund will focus on private infrastructure direct investments and private infrastructure secondary investments supplemented by select private infrastructure primary investments, and intends to prioritise primarily operational assets where Partners Group anticipates there is downside mitigation, and that Partners Group believes will offer potential for operational improvements and platform building. The Fund offers monthly liquidity where investors can subscribe and deem units on a monthly basis, subject to the limitations outlined in the Product Disclosure Statement. The Fund's investments will be held through Investment Holding Vehicles used to aggregate the investments of various Partners Group funds.
