

Monthly report October 2020

October NAV per share increased 1.0%

In October, the Partners Group Global Multi-Asset Fund's NAV increased 1.0% bringing the trailing one-year performance to -3.9%. Below is a description of the distribution made by Project Immo IV (European mixed use) and the Fund's direct add-on investment in Project Ares, both private real estate transactions.

In October, Project Immo IV (European mixed use) distributed proceeds stemming from one of its underlying funds. Cash reserves from previous investment realizations were distributed as the investment partner continues to focus on liquidating the underlying 2007-vintage fund. At the point of Partners Group's acquisition in 2017, Project Immo IV consisted of six mature real estate funds with vintages ranging from 2005-2008 and underlying assets situated across various European countries, including France, Germany, Slovakia and Romania. As of 30 September 2020, four of the six funds in Project Immo IV were active with significant value creation potential in their remaining underlying assets.

In addition, the Fund increased its commitment to Project Ares/Epic, which comprises a co-investment in Epic Midstream Holdings (Epic) that owns two midstream pipelines in Texas, and a partnership commitment to Ares Energy Opportunities Fund. The majority of the add-on commitment will be used to fund project costs on Epic's natural gas liquids pipeline. Meanwhile, Epic signed a strategic transaction with a consortium led by MPLX, an Ohio-based infrastructure and logistics firm, and Whitewater Midstream, an Austin-based midstream company. The transaction, which included the sale of an undivided joint interest in Epic's NGL pipeline and transportation agreements on certain segments between the towns of Orla and Sweeny in Texas, is expected to monetize excess capacity and allow Epic to re-invest proceeds to connect to the Sweeny Texas market. In addition, the transaction is expected to provide incremental EBITDA from the transportation and fractionation of volumes from MPLX.

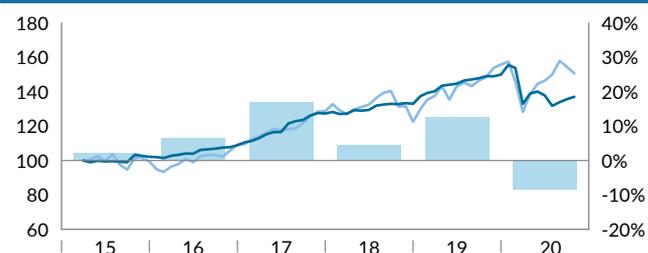

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of total units issued. In certain circumstances redemptions may also be suspended.
