

Monthly report November 2022

November NAV per share increased 1.6%

In November, the Partners Group Global Multi-Asset Fund's NAV increased 1.6%, bringing the total performance for the last twelve months to -2.2%, up from -3.5%. The performance during the month was primarily driven by the Portfolio's positive revaluation of its existing private equity and private infrastructure investments, whilst also seeing an uptick in realization activity within the private equity component of the Portfolio. While inflation and interest rate expectations have remained the dominant market drivers, US inflation has shown the first signs of moderation and the Fed Chair has signalled a slower pace of rate increases. Partners Group remains cautious and intends to continue positioning the Portfolio with a strong emphasis on liquidity and investing in resilient assets that are well-positioned for growth across the changing macro environment.

Over the reporting period, several investments were added to the Portfolio, including a direct equity investment in EdgeCore, as well as the re-underwriting of United States Infrastructure Corporation:

During the month, Partners Group closed the acquisition of EdgeCore, a US-based owner, operator, and developer of scalable, cloud-connected hyperscale data centers. The company selects, develops and commercializes data center sites under fixed long-term contracts with Tier 1 data center customers, including the world's largest cloud, internet and technology companies. Partners Group will work with management to grow the existing platform as well as support EdgeCore in the acquisition and development of future hyperscale sites across the US and Europe.

Meanwhile, Partners Group closed the transaction to expand the shareholder base of United States Infrastructure Corporation (USIC) to incoming investor Kohlberg & Company and re-underwrite the transaction with a 50% co-lead interest in USIC. Founded in 2008 and headquartered in Indianapolis, USIC is a provider of outsourced utility locate services and serves over 1'300 customers. Partners Group continues to have strong conviction that USIC has multiple levers for value creation and will work closely with Kohlberg and USIC's management to implement new initiatives to drive revenue in excess of market growth and increase EBITDA margins.

This Fund might restrict outflows in the future.
