

Monthly report November 2023

**Unitholder Notice: Sell spread increase**

Please take into consideration the recent sell spread reduction from 2.00% to 1.00% applicable to Unitholders redeeming from the Fund after 6 December 2023. The sell spread has been reduced as the fund's portfolio is on track to be rebalanced to target levels following a significant redemption in July, and transaction costs are no longer being incurred at the same level. The sell spread will be re-assessed and adjusted in due course.

**This Fund might restrict outflows in the future.**

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of total units issued. In certain circumstances redemptions may also be suspended.

**November NAV per share increased by 2.9%**

In November, favorable macroeconomic developments were observed, particularly the softening of yields for the long-dated US and European sovereign bonds on the back of weakening inflation data. Investors have already started anticipating rate-cuts by the Federal Reserve in the first half of next year, signalling the end of the current rate hike cycle. The US economy remained resilient with strong levels of consumer activity and investment growth. Reflecting this, Partners Group Global Multi-Asset Fund recorded a performance increase of 2.9% for the month, bringing the returns for the last twelve months to 6.4%. This was driven by the net positive revaluation within the Portfolio's private equity and private infrastructure investments.

Over the reporting period, the Underlying Fund provided (i) first lien debt financing to ThyssenKrupp Elevator, one of the world's leading manufacturer and service provider of elevator systems headquartered in Germany, and (ii) additional capital to Exus, an international infrastructure provider of third-party asset management and project development services for owners of utility-scale solar, wind, and battery storage projects in North America.

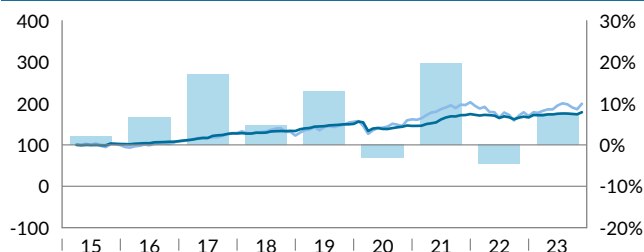

In addition, Partners Group provided a follow-on investment to support EnfraGen's acquisition of over 180MW portfolio of six renewable operating assets from Celsia, a Colombian electricity company focused on renewable energies and energy efficiency. EnfraGen, which was established through a joint venture with New York-based infrastructure development and management firm, Glenfarne Group, is a developer, owner and operator of specialized sustainable and renewable power and grid stability assets in Latin America.

Meanwhile, Partners Group received proceeds from the full repayment of its second lien debt investment in PetVet Care Centers. Headquartered in Connecticut, US, PetVet Care Centers is an operator of more than 450 general, specialty, and equine veterinary hospitals across 40 states. Since Partners Group's initial investment in June 2017, PetVet Care Centers has substantially increased its number of veterinary hospitals signifying strong network growth.

At the same time, CVC Capital Partners VII distributed proceeds from the sale of its holdings in Messer Industries to Messer Group, its joint venture partner and existing majority owner. Messer Industries was established in March 2019 as a joint venture between Messer Group and CVC Capital.
