

PARTNERS GROUP GLOBAL MULTI-ASSET FUND

Monthly report February 2025

February NAV per unit decreased by 0.1%

Global markets fell in February amid softer economic data, concerns over escalating trade tensions, and the sustainability of earnings from US mega cap tech stocks. The US has imposed import tariffs on several countries and commodities, prompting retaliation from its trading partners and escalating global trade tensions. The Trump administration's macroeconomic policies has raised concerns and uncertainty around their potential effects on inflation economic growth, leading investors to adopt a cautious stance. Technology stocks also came under pressure as investors scrutinized company spending and strategy on artificial intelligence. Consequently, US stock markets have experienced losses, while the dollar's strength has reversed against major currencies. Despite softer inflation in February, the window for rate cuts appears to have narrowed as underlying inflationary pressures have likely increased.

For the month of February, the NAV of Partners Group Global Multi-Asset Fund decreased by 0.1%, bringing the returns for the last twelve months to 7.5%. This was largely attributed to holdings in listed private equity, which fell in line with public markets movement. The Portfolio recorded positive revaluation within its listed infrastructure investments, mainly from the Utilities and Real Estate sectors. Distribution activity continues to remain robust, stemming primarily from the Consumer Discretionary sector.

Over the reporting period, Partners Group exited its investment in TOUS, selling its 25% stake back to the founding family. TOUS is a leading affordable luxury products retailer founded in 1920 in Manresa, Spain, with over 720 stores in more than 40 countries and employing 4'000 professionals across the world. Since the initial investment in 2015, Partners Group worked with TOUS' management on several initiatives, such as: (i) brand elevation, (ii) international expansion, (iii) business professionalization, and (iv) digitalization, successfully developing its e-commerce platform and building a full omni-channel customer experience. Through these efforts, TOUS has enjoyed strong topline growth together with a marked shift in the business mix on the back of outsized growth in digital sales and direct distribution channels.

Additionally, the Underlying Fund provided first lien debt financing to an anonymized global ice cream manufacturer producing and distributing a wide range of ice cream and frozen dessert brands with a significant presence in the global ice cream industry.

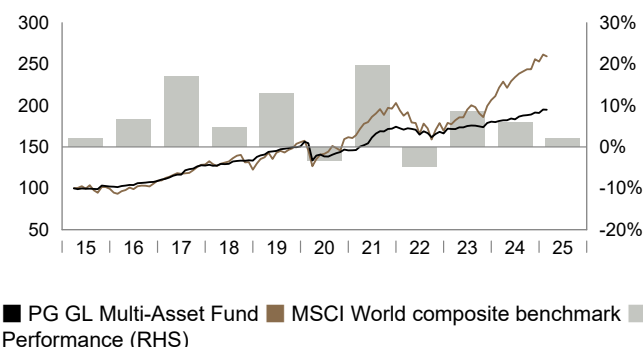

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of total units issued. In certain circumstances redemptions may also be suspended.
