Redemption fee notice:

Please take into consideration the recent introduction of a 2% redemption fee by the Master Fund until further notice. The redemption fee has been applied due to increased market volatility and will be re-assessed once market conditions normalize. Due to the applied redemption fee, the values realized by redeeming shareholders will differ from the reported performance.

This Fund might restrict outflows in the future.

IMPORTANT INFORMATION: We would like to remind investors that redeeming their holdings in the Fund is subject to restrictions as set out in the Fund's constituent documents, including being subject to the ability of the Fund to redeem its holdings in the Underlying Fund. Redemptions are generally subject to a maximum per dealing day expressed as a percentage of the net asset value. In certain circumstances redemptions in the Underlying Fund may also be suspended thus affecting redemptions of the Fund.

Unit price increased by 3.0%

- Positive contribution of private equity direct investments

In May, Partners Group Global Value Fund (AUD) increased in value by 3.0%; marking the second month of recovery as many countries globally began to reopen their economies. The positive development was significantly driven by the Fund's private equity direct investments.

Amongst the largest contributors to the positive performance was AMMEGA, the global leader in mission critical industrial power transmission, lightweight process and conveyor belting. It benefitted from its exposure to diversified end markets with an important share in food and pharma which helped as governments classified its products as "essential" during the lockdowns.

Another top performer was Hearthside Food Solutions, a US-based contract manufacturer of consumer-packaged goods such as nutrition bars, frozen breakfast items, salad kits and fresh sandwiches. The general market recovery supported by increased sales volumes in refrigerated, frozen and shelf stable products contributed to this month's revaluation.

Finally, we expect to see further secondary debt upside potential to arise from the current market dislocation, but also attractive terms for newly issued debt. Additional opportunities are interesting add-on acquisitions of underlying direct equity portfolio companies at more favorable valuations.

Partners Group Global Value Fund (AUD) is an Australian unit trust with the objective of achieving capital growth over the medium- and long-term by investing in private equity. It provides investors with a broad diversification across geographies, financing stages and investment types, while using Partners Group's relative value investment approach to systematically overweight those segments and investment types that offer attractive value at a given point in time, in order to significantly enhance risk-adjusted returns. The Fund allows investors to subscribe and redeem shares on a monthly basis, thus avoiding the long lock-up periods common in most private equity funds. The Fund may hedge certain currency exposure to reduce the risk of foreign exchange movements. The Fund is a feeder fund that invests in Partners Group Global Value SICAV ("Underlying Fund"). The Fund will invest in an AUD denominated share class of the Underlying Fund.
