Resilient performance in challenging times

- New private equity direct investment in Mimecast
- Realization of private equity direct investment CeramTec

In May, Partners Group Global Value AUD recorded a slightly negative performance (-0.4%). The economic environment has become more challenging as central banks have started to increase interest rates to fight spiking inflation, igniting further uncertainty in financial markets. Partners Group has been preparing for this change in fundamentals and is convinced that with our transformational investing approach, which combines thematic sourcing with hands-on value creation, we can navigate such an environment. Should a period of permanently higher inflation materialize, pricing power gains importance. Most of our portfolio companies are able to pass on higher operational expenses to their end consumers or compensate with other cost savings. While the Fund's strategy, underpinned by diversified vintage allocation, is designed to protect against broader long term market dislocation, performance is not immune to short term market volatility.

During the reporting period, Partners Group completed a joint take-private with Permira Private Equity to acquire Mimecast, a leading UK-based email security and cyber resilience company. Mimecast provides SaaS-based enterprise email management including archiving, discovery, continuity, security, and policy from a cloud-based solution. The value creation strategy will focus on leveraging the company's industry leading email security technology to further innovate and expand its current presence in the small and midsize market against the backdrop of the increasing magnitude and sophistication of malware threats.

Also in May, Partners Group received proceeds from the earlier sale of CeramTec. Headquartered in Germany, CeramTec is a developer and manufacturer of high-performance ceramics with superior biological, technical, and thermal properties in both the industrial applications and medical applications business segments. Over the investment period, CeramTec significantly expanded its product development pipeline, completed a company-wide operational improvement project, and further expedited its transformation to a diversified MedTech platform through acquisitions and internal development.

Partners Group Global Value Fund (AUD) is an Australian unit trust with the objective of achieving capital growth over the medium- and long-term by investing in private equity. It provides investors with a broad diversification across geographies, financing stages and investment types, while using Partners Group's relative value investment approach to systematically overweight those segments and investment types that offer attractive value at a given point in time, in order to significantly enhance risk-adjusted returns. The Fund allows investors to subscribe and redeem shares on a monthly basis, thus avoiding the long lock-up periods common in most private equity funds. The Fund may hedge certain currency exposure to reduce the risk of foreign exchange movements. The Fund is a feeder fund that invests in Partners Group Global Value SICAV ("Underlying Fund"). The Fund will invest in an AUD denominated share class of the Underlying Fund.
